# A Space with History

Welcome to Heritage 1907- Nestled within the walls of a meticulously restored Edwardian cotton mill, this venue is more than just a setting—it's where history and modern elegance intertwine to create an unforgettable atmosphere for your event.

Built in 1907 by Stott & Sons, Ram Mill was a symbol of Oldham's industrial boom and it became a hub of textile production, driven by cutting-edge machinery from Platt Brothers & Co. After closing briefly in 1931, Ram Mill reopened in 1934 and later played a role in World War II, repurposed as a Ministry of Food storage facility. Post-war, it thrived under Hagues Textiles Ltd., before transitioning to home furnishings with Slumbalux in the late 1970s.

In the early 2000s, a group of brothers acquired Ram Mill, determined to restore it to its former glory. They transformed the mill to a high standard, ensuring that its rich history remained intact. Today, you are surrounded by centuries-old charm—from the original bricks and preserved tiles to the spinning tables that have stood the test of time. The most captivating feature is the actual crane from 1907, still standing tall as a symbol of the mill's industrial heritage.

Host your wedding, corporate event, or private celebration in a venue rich with history and character. At Heritage 1907, your event becomes part of a story over 100 years in the making, a setting where past meets present in the most enchanting way.
